It is my pleasure to write this testimonial about Jonathan Coles and Aeon Water Filters.

Since we have our water filters installed at home and our office, we have found that we are drinking a lot more water.  
Knowing that all the chemicals are being taken out of the water gives us piece of mind.

We have also found it much more convenient to give to our clients as we used to buy bottled water for them.

We have found the staff at Aeon water filters extremely helpful in guiding us through the process, from choosing the right filtration system, cartridges and installation.

We highly recommend Aeon water filters to our friends, family and colleagues.

Yours Sincerely
